Exceptions for Waste Disposal

Commercial Business Owners

Commercial business owners who currently subscribe to waste services with Area Disposal at the business location are not required to also have waste pick up at their residence. They may choose to dispose of their personal waste in their commercial waste container. This only applies to the business owner and NO OTHER EMPLOYEES. At such time that the commercial business no longer requires or receives waste disposal services the owner will be required to obtain residential waste disposal services.

Vacant Properties

Property owners are not required to subscribe to waste and/or recycling services if the property is vacant. Once the property is occupied, the new tenant or owner will be required to obtain residential waste disposal services.

To apply for an exception please visit the City Clerk's Office at 700 Broadway St. or the Building and Safety Office at 313 Limit St.
